

# How to licence macOS

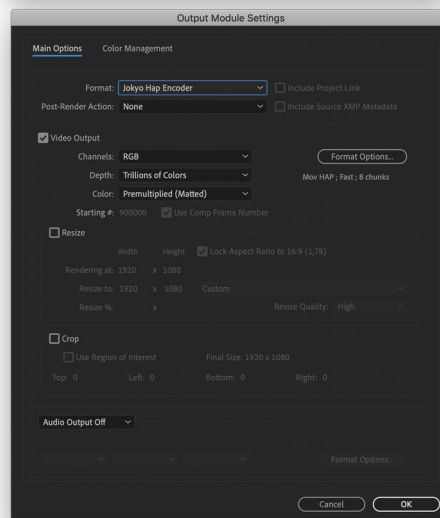

Open DMG, and run the .pkg installer

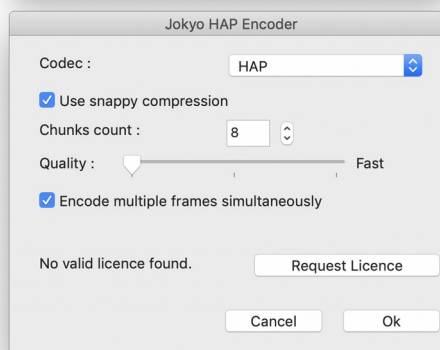

At the "Install licence" file step, click on "continue".  
The plug-in will be installed as a trial version  
(limited to an output of 250 frames watermarked).

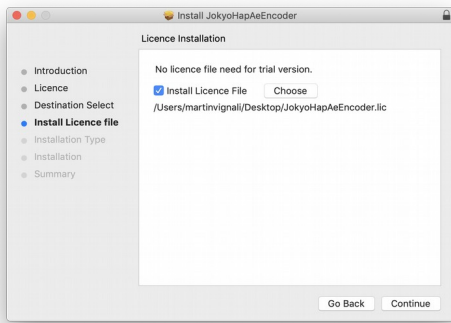

At the end of the installation process, open Adobe After Effects  
Add a "composition" to the "renderqueue" and select Jokyo Hap Encoder

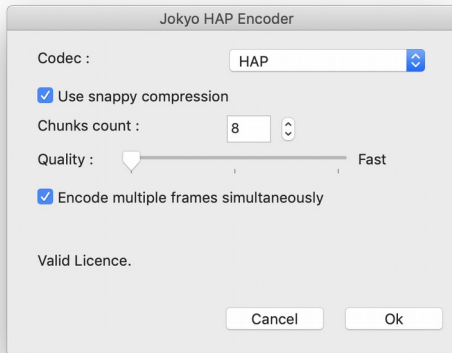

Click on Format options

Click on Request Licence, to generate the request file for your computer  
A request file named JokyoHapAeEncoder.ask will be created on your desktop.  
E-mail this file to [licence@jokyoencoder.com](mailto:licence@jokyoencoder.com) with your purchase order number  
It can take around 2 working days for the licence to be created.  
You will then receive an email containing a file called JokyoHapAeEncoder.lic

Run the .pkg installer again.  
At the "Install Licence file" step, select the file JokyoHapAeEncoder.lic and continue the installation process.

You can check on the status of the licence by going to the dialog box of the Formats options of the Jokyo HAP Ae Encoder in After effects.
